

# AWAKENING THE DREAMER

## CHANGING the DREAM

### A SYMPOSIUM

Join us and experience an inspiring exploration into the links between the three facets of a “new dream” for humanity and planet Earth:

- 🌍 *Environmental sustainability*
- 🌍 *Social justice*
- 🌍 *Spiritual fulfillment*

Together we'll go on a journey of planetary inquiry into what is possible for the future. This symposium combines leading edge information, live presentation, video clips, and group interaction.

You will come away with new and deeper levels of awareness and readiness for effective action with a profound sense of hope and purpose.
